

Spill Pallet for aggressive chemicals Model FP4

Product Data Sheet

Part No.	Colour	Drain	Length	Width	Height	Weight	Load	Sump	Qty per Pallet
1232	Light Blue	No	1295mm	1295mm	254mm	36kg	2,722kg	250 Ltrs	10
1233	Light Blue	Yes	1295mm	1295mm	254mm	36kg	2,722kg	250 Ltrs	10

Description: A fluorinated polyethylene sump with deck surface large enough to store 4 x 205Ltr drums. In the event of a leak, fluid is contained in the sump preventing contamination to the surrounding environment. Capable of withstanding chlorinated and other aggressive solvents.

Application: For storage of both steel and polyethylene drums and smaller containers which need to meet containment regulations and/or for general housekeeping purposes.

Product Features: The Spill Pallet Model FP4 helps you comply with containment regulations while storing steel and poly drums containing chlorinated or aggressive solvents. Capture leaks, drips, and spills to keep floors dry and workers safe.

- 2,722kg UDL capacity is strong enough to support four fully loaded steel or poly drums.
- Fluorination gas treatment allows this unit to survive in environments with chlorinated or aggressive chemicals that normal LLDPE is not compatible with.
- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep your storage area clean and safe.
- Linear Low-density Polyethylene construction resists UV rays, rust, corrosion and most chemicals for a long trouble-free life.
- Optional drain plug lets you conveniently empty the sump without removing drums or grating.
- Removable grates 1220mm x 610mm (2 per pallet) - makes clean-up quick and easy.
- Helps you meet and comply with local container storage regulation.

Disclaimers: Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources.
